

BE A PIONEER IN OFFSHORE WIND!

Project Manager

Company description

Barge Master is a fast growing company in the offshore wind industry. We are innovative company that develops motion compensation solutions, such as platforms, cranes and gangways for the maritime and offshore industry. By providing compensation systems we help our clients to avoid weather downtime and remain in charge of their operations and schedules. Down Time Doctors, that's what we are. Job description

Make your mark as our new Project Manager within the motion compensated gangway project team. You will manage international offshore operations and you are responsible for the entire project, including its quality, budget, planning and safety.

During the project execution, you will be the linking pin between our client, internal stakeholders and a variety of reputable high-end suppliers. In leading your team you take a coaching role towards your team members and actively support them in achieving their potential.

During the project you will structure, plan and budget the (project) work and inform relevant stakeholders on time. You delegate and monitor the work taking into account the capabilities and ambitions of each team member. You will be responsible for translating client requirements to an optimal project execution, both from an operational as an economic perspective.

Among other things your responsibilities are:

- Responsible for the safe, and timely execution of the project within budget and to client satisfaction. Setting-up, monitoring, and communicating a well thought out and efficient project planning and corresponding budget.
- You manage, and coach team members and stimulate continuously development. You lead the project team in order to achieve optimal and creative team performance and connect and optimize the project team with the organization.

Your profile

- Completed technical HBO/WO;
- At least 3 years' experience as Project Manager where you were responsible in leading capital-intensive projects independently.
- Experience within an operational environment where solutions and safety go hand in hand
- Experience in project, finance, contract and stakeholder management.
- Experience and skills in mechanical design. Hydraulic knowledge is an advantage.
- Full command of the English and preferably the Dutch language (written and verbal);

You recognize yourself in the following words: safety as a core value in leadership and behaviour, professionalism, collaboration, result-driven, responsibility and flexibility.

Working at Barge Master

At Barge Master we work hard to deliver quality and finish our projects in time. We believe a stimulative company culture with enough room for fun motivates our people to do so. Our company is growing, and we want you to grow with it. That is why working at Barge Master also means:

- Working in the exciting offshore wind industry that contributes to the energy transition
- An open, young and supportive working environment.
- A remuneration that reflects your experience and responsibilities.
- Operating in a team but with large individual powers.
- A healthy and sustainable lunch, including a salad bar.
- Many company gatherings
- A beautiful view of Rotterdam from our 18th floor.
- Travel abroad (10% of your time)

Procedure

If you are interested and would like to be part of a young, fast growing offshore company, please send an email with your motivation and CV to: recruitment@barge-master.com. For further information you can contact HR via 010-4090060.

This vacancy is only for EU nationals living in the Netherlands.
