

## Operations Manager

**Location: Rotterdam**

### **About Us: Barge Master**

Barge Master is a growing company in the offshore energy industry. We are innovating and develop motion compensation solutions for the offshore industry. Barge Master's office is located in the entrepreneurial Makers District in Rotterdam with a stunning panoramic view over the harbor skyline.

We are now introducing our latest innovative solution: the BM-Feeder. For this motion compensated feeder solution we have launched a new-build program. This requires a significant increase of our operational and technical teams.

Watch the video of the Feeder solution <https://www.youtube.com/watch?v=yZHY9XLVioE>

### **About the Job: Operations Manager**

You are our link in starting up and coordinating the rental projects. You manage the mobilization, logistics and operations of our motion-compensation offshore equipment. You take the lead, act as the first point of contact for our clients and ensure that project execution runs smoothly and safely. You contribute to the strategic developments of our organization with your ideas and expertise and you are part of the management team. You take a coaching role towards your team members and actively support them in achieving their potential.

### **Your responsibilities are:**

- Successful execution of our rental projects (MCG/T700/BM Feeder), including logistics, operations, quality, safety, planning and cost-control
- Liaising with both internal and external stakeholders on all aspects of your projects
- Coordinate (de)mobilizations on-site, perform client visits and attend offshore trials
- Logistics, spares and warehouse management
- Crewing and operator training
- Developing and maintaining operational procedures
- Manage aftersales service scopes for T700/T40/MCG procurements

### **About you:**

- BSc/MSc degree (technical or maritime industry);
- At least 5 years' experience in offshore projects;
- Experience as an operational project manager for whom solutions and safety go hand in hand;
- A background in mechanical engineering and/or knowledge about hydraulic systems is an advantage;
- Full command of the English and preferably the Dutch language (written and verbal)
- Willingness to travel

## **Working at Barge Master**

At Barge Master we work hard to deliver quality and finish our projects on time. We believe a stimulating company culture with enough room for fun motivates our people to do so. Our company is growing and we want you to grow with it. That is why working at Barge Master also means:

- Working in the exciting offshore wind industry that contributes to the energy transition
- An open, young and supportive working environment
- A remuneration that reflects your experience and responsibilities
- Training through (inhouse) courses and on the job
- Operating in a team but with large individual responsibilities
- A healthy and sustainable lunch, including a salad bar
- Out of office events throughout the year
- A beautiful view of Rotterdam from our 12th floor
- Travel abroad

## **Procedure**

If you recognize yourself in this position, you can apply before the 26<sup>th</sup> of May by sending your motivation letter and CV to [recruitment@barge-master.com](mailto:recruitment@barge-master.com). In the week after the closing date we will be in contact to let you know if you have been selected for the first interview. If there is a match after the first interview, we will continue with a second interview and if it is still a match we will offer you the role.

**This vacancy is only for EU nationals or people currently working in the EU with a valid working permit.**
